

Walmart Remote Fulfillment

Grow your sales internationally with U.S. inventory

Walmart Remote Fulfillment helps expand your reach across borders by listing your Walmart.com items on Walmart.ca and Walmart.mx. Sell internationally with easy item enrollment, market-specific pricing and fulfillment by Walmart using your U.S. Walmart Fulfillment Services (WFS) inventory.

Walmart Remote Fulfillment unlocks:

Increased sales potential

Boost growth with access to customers in Canada and Mexico.

Tailored listings

Items automatically appear in the shopper's local language and currency.

Automated pricing

Manage pricing using custom rules or automated systems.

Unified inventory

Walmart fulfills international orders from existing U.S. inventory and manages returns.

Local events

Promote listings by participating in market-specific sales events.

Simplified compliance

Let Walmart confirm item eligibility and manage customs and trade compliance.

How it works:

1. Cross-list eligible items directly on Walmart.ca and/or Walmart.mx.
2. Customers purchase items on their domestic Walmart site.
3. Walmart fulfills orders internationally using your U.S.-based WFS inventory.
